

October Block of the Month instructions

By MQG | ~~October 19, 2013~~ Sept 21, 2023

Block of the Month demo and lottery • Disappearing 9 patch

How do you make a disappearing 9 patch block modern? Use lots of neutral!

You need:

5 5" squares of BLACK solid (not tone on tone)

4 5" squares of tone on tone prints in our guild colours (lime/yellow, orange, reddish, but NOT blue)

Sew the 9 patch together in any layout you like; the more random, the better. You will get a 14" block.

Cut your block horizontally and vertically down the centre, leaving you with 4 7" square blocks.

At this point, you would mix and match and rearrange your small blocks, then sew them all together but for our lottery you will bring in the four small blocks. 4 7" blocks = 1 lottery ticket. No limit to how many you can make!

Here are some possible layouts and what they look like quartered.
